All these lonely lonely mem'ries from the past  
I'm sittin' at the table where we used to sit  
Thinking of love I knew would never last  
Thought I heard the band start playing our favorite  
song  
But it's only lonely mem'ries from the past  
I'm all alone tonight seeing visions of you I wish I knew  
how long this thing will last  
I know I'll soon be leavin' and I hope I will forget  
All these lonely lonely mem'ries from the past  
[ steel ]  
The dance floor now is empty as I sit here all alone  
And the time seems to go so very fast  
I thought I heard you whisper I love you oh so much  
But it's only lonely mem'ries from the past  
I'm all alone tonight...
