(Verse)

The old man was a good man he raised his children
right
He taught us how to work hard and showed us how to
fight
Told me about the good Lord and when to use a gun
Made me very proud of where it is that I come from

(Chorus)

When I die put my bones in the Dixie dirt
Look down at me smiling I don't want no feelings hurt
All I leave behind me is a ragged old guitar
I may not change the world but I'm gonna leave a scar

(Verse)

Years a row nobody, the old man turned me loose
Way cross town I learned about those sad ol' country
blues
Taught me how to prep my heart from trying to make it
right
Told me not to ever break one alone at a time

(Chorus)

When I die put my bones in the Dixie dirt
Look down at me smiling I don't want no feelings hurt
All I leave behind me is a ragged old guitar
I may not change the world but I'm gonna leave a scar

(Bridge)

Hope you have me on your memory like a painted old
tattoo
I might not make a history book but I'll burn a page or
two
Yeah

(Chorus)

When I die put my bones in the Dixie dirt
Look down at me smiling I don't want no feelings hurt
All I leave behind me is a ragged old guitar
I may not change the world but I'm gonna leave a scar
