

The Black Moods

"Hey You"

Visit "[Hey You](#)" on MotoLyrics.com

Bodies stacking up from a killing spree, then again it
could all be in my head, my head.

And every night is the same as everyday, restless, it
feels like it never ends.

It never ends.....

Chorus

Hey You, how could you let yourself go?

How could you let us all down?

Now everyone that you know never seem to come
around

A fool you are, oh what a fool you are.

Everyday you try and take something new

Anything you want , they would give to you

you know it's true

It's no surprise to find you'll never bring it back again.

It's up to you , but can you do it without your friends?

I bet you can.....

Chorus

Hey you, how could you let yourself go?

How could you let us all down?

Now everyone that you know never seem to come
around.

A fool you are , oh what a fool you are.

(Bridge/Solo)

Hey you, How could you let yourself go?

How could you let us all down?

Now everyone that you know, never seem to come
around.

A fool you are, oh what a fool you are

Now every night is the same as everyday
