There she was
Looking right at me
Don't lose your head
Just try to breathe
And keep your cool, if you can

Chorus
Your love is like a wave
Crashing over me
Cut out my eyes so I can't see

The damage done
Look what you've done to me
Oh it hurts so bad, but it's not so bad
Yea well your no good,
But your good for me
Misunderstood, but hard to believe
You make it hard to believe

Chorus
Your love is like a wave
Crashing over me
Cut out my eyes so I can't see
The damage done,
Look what you've done to me
Your Love is like a wave
Crashing over me

I know something's wrong, but it's alright with me
I should just go home, but I can't leave

Chorus
Your love is like a wave
Crashing over me
Cut out my eyes so I can't see
The damage done,
Look what you've done to me
Love is like a wave
Crashing over me
