Uhh, uhh, under pressure under pressure  
A todos callejeros  
Worldwide  
Lado oscuro de la fuerza  
D.O.T.F  
Representando asÃ  
Like this..

[Verse 1: Salvador]

I spend my cash on bullshit, end up getting broke  
Feels like I'm drifted in limbo, the sensation got me  
choked  
My friends keep calling  
And I just can't seem to break that cycle  
Entangled in the pain  
That got me paler than Michael  
But yo, I'm late every day, way too tired for school  
Haven't been there for a week now plus my teacher's a  
fool  
She wants to sample my urine  
Threatenin' with the law  
Tellin' me what to do  
Like that bitch knows more  
Of how my life should be controlled  
Maintained in the system to mold  
Just to be sheeped and be a part of the hold  
But I refuse to be a part of these so-called norms  
So I am still a reject ever since I was born  
This little time is absorbing all my energy within  
The atmosphere through this landscape makes the  
oxygen thin  
The rumors and lies about things that I'm doin'  
Keep spinnin all the time, people say my life is ruined  
So as I walk through the streets I can feel I'm being  
looked  
Some hypocrites smile but I can read them like books  
The school shrink is on my case  
Offering methods to heal  
My girl is calling all day  
It's time to put on my shield  
Defense mechanism, I feel I'm getting too close

Lyin' to bail out, the easy way is what I chose  
Escapin with my pipe inhale it 'till my eyes get red  
The world looks better through these goggles, nuff  
said

[Chorus]

Life's got me under pressure but I'm tryin' to reach  
A better way of living but still suckers wanna preach  
Like they better than me, 'cuz I don't fit in their plan  
I remain who I am that's all I can (2x)  
Understand?

[Verse 2: Opio]

I am the ever underrated, alienated and you hate it  
Cuz you thought I made it and concentrated  
On gettin' elevated, wiring cars, shit is gettin' faded  
It don't matter cuz  
If I try to be the best I can be  
You'll only see the negativity  
I know the deal  
So fuck what I feel and yes  
I confess  
And that's something that I guarantee  
I never let no other people get my fucking kicks for me  
Seen lots of shit, pump it up red I explain  
16 millimetre spikes in their veins  
Black spoons, lives trapped up in cages  
Dirty floors all covered by syringes  
And in the night hiding my baggies under my carpet  
And in the morning pickin' 'em up out to clock it  
I thought my head had never been any clearer  
Writing my name in white lines on the mirror  
And I have no sense, yeah that's what you be believin'  
You think I only be intoxicated daydreamin'  
Chose what I like now I do what I chose  
You say I got nothing I say I got nothing to lose  
Before I leave I'm gonna live a life of all funs  
Now do you understand where I'm coming from  
Fuck what I do keep, the focus on you  
I wonder how it would be if you saw the things I do  
Now let me tell you 'bout me, easy is my mentality  
I got love for everybody who got love for me now  
Big up to my fellows in all levels  
Do what you feel, yeah nobody does forever

[Chorus] - 2X
