You want the ring,
I'll get it for yeh in no time, oh ohh
Don't be afraid, cuz I got it all figured out, oh ohh
I'll give you whatever, get you whatever
The choice is yours, so take the chance

I got the spotlight, heading down south
Baby you know, I got it gold yeh, I got it gold, yeh
Aint gonna stop now, gotta stay top
Baby you know I got it gold yeh, I got it yeh

No need to doubt, I got my credit card on you, on you
I'll be the man that you like, God will keep us in line
Aint no need to worry, to worry, ooh oh

I got the spotlight, heading down south
Baby you know, I got it gold yeh, I got it gold, yeh
Aint gonna stop now, gotta stay top
Baby you know I got it gold yeh, I got it yeh

Hold my hand, and I'll take you to a better place
Where nobody is watching us, yeh
I'll show you what real love is, the meaning of us
And for forever and ever, oh

I got the spotlight, heading down south
Baby you know, I got it gold yeh, I got it gold, yeh
Aint gonna stop now, gotta stay top
Baby you know I got it gold yeh, I got it yeh
