I never loved anyone like I love, love you
I never needed anyone, like, I need, need you
Girl you're my all, oh, oh, oh, oh, oh, oh
You know I need you, oh, oh, oh, oh, oh

So get up and dance, I don't wanna wait
Keep up with the music, let it play
We taking the lead, step into the scene
Baby it's a whole new world, enter and see

Can you do it like me, can keep up like me
Can you hold it for a second while I catch my breath
yeah
Can you do it like me, can you keep up like me
Can you keep up with the music while we dance in the
air

Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh

Lets go;
Shorty got me hypnotized, I don't know what to do, ooh
Losing my mind baby, now I'm all over you
Gotta be, all over you, now I'm all over you, ooh
You got it all, oh baby, I want your love, oh baby
So get up, get up, get up, get up and dance

Can you get up and dance, I don't wanna wait
Keep up with the music, let it play
We taking the lead, step into the scene
Baby it's a whole new world, enter and see

Can you do it like me, can keep up like me
Can you hold it for a second while I catch my breath
yeah
Can you do it like me, can you keep up like me
Can you keep up with the music while we dance in the
air

Can you do it like, me, eh, erh, erh, erh, errh

Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh

You got me now, got my weakness
Show me how, what's your wish list
Ooh baby, oh baby, oh baby, yeah oh

Get up and dance, I don't wanna wait
Keep up with the music, let it play
We taking the lead, step into the scene
Baby it's a whole new world, enter and see

Can you do it like me, can keep up like me
Can you hold it for a second while I catch my breath
yeah
Can you do it like me, can you keep up like me
Can you keep up with the music while we dance in the
air

Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh
Can you do it like, me, eh, erh, erh, erh, errh
