We can't stand by and watch this fall
We can't let them end it all
There's a chance for us; a legacy
which can't burn out

THROW UP YOUR HANDS

There's sweet escape for the ignorant
But there's hope inside
For the one's who care

We'll let rip with all we've got
We'll show them all we won't give up
Do you want to play their game
Or are we right?

THROW UP YOUR HANDS

There's sweet escape for the ignorant
But there's hope inside
For the one's who care
Rise above belligerence
For numbers will rule where greed's bound to fail

Freedom is within grasp it's ours to take
Unity's calling you, there's history to make

THROW UP YOUR HANDS

There's sweet escape for the ignorant
But there's hope inside
For the one's who care
Rise above belligerence
For numbers will rule where greed's bound to fail
