"One Chance"

Visit "[One Chance](#)" on MotoLyrics.com

You get one chance to live, one chance for fame
One chance for fortune, one chance to make it
You know me I'm a star in the making
So you best believe I'm gonna take it
One chance for glitz, one chance for status
One chance to blow, one chance to do this
You know me I'm no longer the new kid
So its best you know I'm gonna do this

Bomber, sell off
Im at the top of the food chain you fell off
Considering sending for me, you get send off
Your not on my level so try get the hell off

You cant kid this
You already know i does this baby so know that i did
this
Eating this year so pass me my big dish
You beat me lyrically thats a big wish

Extra terrestrial come like e.t
I won't stop till I'm on b.e.t
Nah you don't wanna come up against me
I'll make you wanna phone home quick like e.t

Yo believe me, Its not easy being the best
It means being better than all the rest
You got to make sure you have the right formula
So its not just having a guess

You get one chance to live, one chance for fame
One chance for fortune, one chance to make it
You know me I'm a star in the making
So you best believe I'm gonna take it
One chance for glitz, one chance for status
One chance to blow, one chance to do this
You know me I'm no longer the new kid
So its best you know I'm gonna do this

you get one chance
I took mine like say it was a penalty kick from the spot
no rebounds

I be firing bars like a rifle
16 bars wouldn't separate me from the title

Or 32, I don't care if your 32
Could have kids and be working too
Just know that I'm still murking you
My 32's be hurting you

I'm the 5-star general enemies ate them all
Unlike you guys that are soft like cotton wool
I want a 6-figure deal to the decimal
My bellies starving I'm hungry, I'm never full

Yes so don't test
I used you on my way to success i say thanks and god
bless
I put my troubles to rest now I'm the best
I'm way past the rest I laid them to rest

You get one chance to live, one chance for fame
One chance for fortune, one chance to make it
You know me I'm a star in the making
So you best believe I'm gonna take it
One chance for glitz, one chance for status
One chance to blow, one chance to do this
You know me I'm no longer the new kid
So its best you know I'm gonna do this

Nowadays there's a whole lot of actors
With bare gimmicks they belong on x factor
I'm number 1 on the roster
That's why your chicks all over my nuts like boxers

But forget that, lets talk facts and tracks
I've got the bars that you wish you had but lack
So step aside cause I'm next
You've got my bars all over your lips like carmex

I'm vex, cause there's no room to blow
But I'm still gonna make it so
You could say I've got a damn cheek
Get to know I'll still put my pimp hand on your
damn cheek
Now bomber that's a damn cheek
My flows rare and valuable so call it an antique
You must be pissed cause I aint peaked
You better take note and listen up when i speak
