"Not With Me"

Visit "[Not With Me](#)" on MotoLyrics.com

I'm waking up from my summer dreams again
try to thinking if you're alright
then i'm shattered by the shadows of your eyes
knowing you're still here by my side

Reff :

I can see you if you're not with me
i can say to my self if you're okay
i can feel you if you're not with me
i can reach you my self, you show me the way

Life was never be so easy as it seems
'till you come and bring your love inside
no matter space and distance make it look so far
still i know you're still here by my side

Back to Reff :

Yeah! you're made me so alive,
you give the best for me!
love and fantasy
yeah!
and i never feel so lonely,
coz you're always here with me! yeah!
always here with me

Back to Reff :

I'm waking up from my summer dreams again
try to thinking if you're alright
then i'm shattered by the shadows of your eyes
knowing you're still here by my side
