Gold dive diving, diving oh  
Gold dive diving, yeah eh eah  
Gold dive diving, dive oh  
Gold dive diving

Stop the clocks can we just slow it down  
He reads your thoughts they go to a higher ground  
Invite the guy you like inside the door  
Gold, Gold, Gold, Gold, Gold

Let your self be one with the ocean floor  
I know gold is not enough, She's a diamond I'm  
the rock  
While I'm laying down I try my luck  
Don't I know gold is not enough?

To catch her I'd have someone like yourself  
(someone like yourself)  
Through crystal balls I don't see no-one else  
(yeahh)  
No I don't feel  
No no no no no Heartbeat no x8

Cause gold is not enough,  
She's a diamond I'm the rock  
While laying down I try my luck  
Don't I know gold is not enough?

Oh gold is not enough,  
She's a diamond I'm the rock  
While laying down I try my luck  
Don't I know gold is not enough?

Gold diving  
Gold diving  
Gold diving  
Gold x4

Glen Bevan
