The axis in the sky, got me going from ex to why
Oh why oh why?
And the questions in my heart, got me going from end
to start
Oh why oh why?

We in the same room, but my minds somewhere else
You're looking in my eyes, I'm gazing at the shelf
I got my back turned, close the gate to my feelings
I'm looking for a sign, staring at the ceiling
My hearing can go, it's just the tones I know
A hint, that I'd done something wrong

So I just let it out, get it out, shout it out
Scream it out loud, slam the door and go
You hear me get to let it out, get it out, shout it out loud
Scream it out loud, slam the door and go
Now you're all alone
Now you're all alone

The axis in the sky, got me going from ex to why
Oh why, oh why?
And the questions in my heart, got me going from end
to start
Oh why, oh why?

The feeling on my face, as I ran from your place
I started my car through teary eyes but I knew it
wouldn't be far before I
Would break down and drop, punch the ticket on my
own clock
Running red lights, dead at night -- speeding until I
came to a dead stop

We in the same room, but my minds somewhere else
You're looking in my eyes, I'm gazing at the shelf
I got my back turned, close the gate to my feelings
I'm looking for a sign, staring at the ceiling
My hearing can go, it's just the tones I know
A hint, that I'd done something wrong

So I just let it out, get it out, shout it

Scream it out loud, slam the door and go
You hear me get to let it out, get it out, shout it out loud
Scream it out loud, slam the door and go
Now you're all alone
Now you're all alone
