I crawl into your window in the late of night
You're looking like an angel in the pale moonlight
Got your fingers in your hair, your teddy by your side
Let's play Prince and Sleeping Beauty, tonight

Remember when I first saw you, it was 4:06
I was picking up bottles, you were playing pick up sticks
I nearly dropped my collection, tripping on my feet
How could someone so young, be so complete?

CHORUS

You're my Lady, and I am your man
You're my Lady, and I am your man
You're my Lady, and I am your man
You're my lady

I've fantasized about living this lie
Come and kiss you on the cheek, be the fairy tale guy
But what if your parents come in, what if they see me
and then
They call the cops to seize, every sorry piece of me?
They'd bring their guns to say, just how long I'd
go away
Then how would I watch my baby, baby?

CHORUS

So I keep my distance, but I extend my love
Those made up memories, never seem to be enough
But I do believe that my day will come
I do believe that two can become one
The creaking of your staircase, I think I can hear your
mom
Oh baby wink me goodbye, my dear you are so shy
I guess that's why I'm your guy, and you're my...

CHORUS

So I bolt for the curtains, and I tear them apart
Leaving you so quickly breaks my heart
I jump for the branches, but I missed the grab
Falling from two stories, you think wouldn't hurt bad

Now I've fallen twice for you girl, I don't care if
jail is now my world
Cause I'll be back for you, hear what I say
Nothing can keep me away!

CHORUS
