I ain't got the time to worry about tomorrow  
Today's got enough of pain and sorrow  
The heartache ... over wear you down  
I sit on my porch and I do a little pickin'  
Waiting around for the booze to kick in  
Tomorrow I'll be getting out of town

I went for a ride and I met the devil  
He told me son you look like a rebel  
Hop on in and scream that rebel yell

I jumped on the bus where the road is burning  
And I went out on the highway of no returning  
Before I knew it it all just went to hell

Take me back where dead road runs  
And let me see the sight of my shotguns  
Life here ain't fun  
What good I had I lost and cursed  
And I'm just out there picking up the shards  
You know life is hard  
Down on Moonshine Boulevard

The IRS took away my money  
And don't you think it's kinda funny  
That's when my baby up and ran away  
That's when I saw them bad girls wink  
And I took myself to some serious drinking  
And I've been on the liquor since that day

First came the time ...  
I ain't got no time for the strippers and the booze  
And man you know I almost lost my mind

Nowadays moonshine is all I can pay for  
A few cents a day is all that I play for  
I hope the hooch ain't gonna make me blind

Take me back where dead road runs  
And let me see the sight of my shotguns  
Life here ain't fun

What good I had I lost and cursed  
And I'm just out there picking up the shards  
You know life is hard  
Down on Moonshine Boulevard

First came the time ...  
I ain't got no time for the strippers and the booze  
And man you know I almost lost my mind

Nowadays moonshine is all I can pay for  
A few cents a day is all that I play for  
I hope the hooch ain't gonna make me blind

Take me back where dead road runs  
And let me see the sight of my shotguns  
Life here ain't fun  
What good I had I lost and cursed  
And I'm just out there picking up the shards  
You know life is hard  
Down on Moonshine Boulevard
