

Boybs "A Song For Us"

Visit "[A Song For Us](#)" on MotoLyrics.com

I'm walking in my room
My head gets hurt and doom
The memories in my mind
Take me to that wild ride
The times you kissed my neck
They were the best I had

I'm living in a love storm where I can't tell to
anyone
The footprints in the snow ground reminds me that we
were only one
And all the crazy things you said made me feel the
most special guy
But all I have is the better kind of dream with you
tonight

I just want to share
This love that I bare
Passion gets me strong
Memories make me alone
I just want to know
Why you let me dope
Seems I'm high these days
Come back to my ways

All the nights I pray
For you come today
Tell me those sweet things
I'm your everything
Waiting next to phone
You call me at once

Hear your Indian voice
And die with this noise
I can't deal with end
I'm on "Loneliness land"

I'm living in a love storm where I can't tell to
anyone
The footprints in the snow ground reminds me that we
were only one
And all the crazy things you said made me feel the

most special guy
But all I have is the better kind of dream with you
tonight

I just want to share
This love that I bare
Passion gets me strong
Memories make me alone
I just want to know
Why you let me dope
Seems l  m high these days
Come back to my ways

The bottles we drunk
The parties we had fun
The nights we went out
And now l  m so down
The letters I wrote
The things that I know
How could I let you go?
And now l  m so down
And now l  m so drunk
And now l  m so down
Thinking of how much I could have you next to me right
now

I just want to share
This love that I bare
Passion gets me strong
Memories make me alone
I just want to know
Why you let me dope
Seems l  m high these days
Come back to my ways

I just want to share
This love that I bare
Passion gets me strong
Memories make me alone
I just want to know
Why you let me dope
Seems l  m high these days
Come back to my ways
