(For The Shape I'm In)  
C. Mead

Well I woke up this morning and I looked outside  
And all I had was gone  
I started wondering "What else could go wrong?"  
I got them weary violated blues  
Broken hearted and nothin' to lose  
But I'm all right for the shape I'm in

I don't know why I'm not over the edge  
I done my duty, I took the pledge  
Never want to live that way again  
Now I can hear that tick of the clock  
I take a lickin' but I don't stop  
And I'm all right for the shape I'm in

Tired and torn and tattered  
Holes in both my shoes  
And it's rained on almost everything I use

Standing outside in the pouring rain  
Getting my poor house rearranged  
But I'm all right for the shape I'm in
