(She's Not Talking To Me)

C. Mead, A. Murphy

It's been such a long time since she's talked to me  
Out here in this phone booth I'm chilled to my knees  
I dial her number and I just can't believe  
She's talking to someone  
She ain't talking to me

She's talking to someone  
She ain't talking to me  
And I can't stop crying  
Right here in the street

That signal I'm getting brings a monotone plea  
She's talking to someone  
She ain't talking to me

I fumble for quarters I'm looking for dimes  
I can't even buy her she's busy each time  
I slam the receiver and I clench my teeth  
She's talking to someone  
She ain't talking to me
