(She's Not Talking To Me)

C. Mead, A. Murphy

It's been such a long time since she's talked to me

Out here in this phone booth I'm chilled to my knees

I dial her number and I just can't believe

She's talking to someone

She ain't talking to me

She's talking to someone

She ain't talking to me

And I can't stop crying

Right here in the street

That signal I'm getting brings a monotone plea

She's talking to someone

She ain't talking to me

I fumble for quarters I'm looking for dimes

I can't even buy her she's busy each time

I slam the receiver and I clench my teeth

She's talking to someone

She ain't talking to me
