YOU'RE SO COLD:

Say what you wanna say

I'm more than just a phase

You underestimate, but you don't know that

Deeper than outer space

Sweeter than milky way

Sneaky like watergate

I'm harder to define

Don't lie, don't lie, don't lie

You like the way I look, yeah

Is that all that you see

The cover of the book, yeah

So condescending, stop pretending that you better
than me

Ohh yeah

By the way, by the way

You're acting so cold

By the way, by the way

Just like an eskimo

You don't know you don't know nothing about me

Thats why you doubt me

Youâ€™re so cold

Youâ€™re so colddd ohh yeah

Youâ€™re so cold

Youâ€™re so cold

Ohh yeah your so cold

Youâ€™re so coldddddd

Ohhh yeah

This might be hard to take, but you wonâ€™t see me
break

I need to set this straight there is so much more to me

Wanted like Jesse James

More boom than hand grenades

Just like the ace of spades

Thereâ€™s only one of me

Don't lie, don't lie, don't lie

You like the way i look yeah

Is that all that you see the cover of the book, yeah

Thereâ€™s so much you'll miss being foolish, looking
down on me

CHORUS

By the way by the way

Youâ€™re acting so cold

By the way bye the way

Just like an eskimo

You don't know, you don't know nothing about me

Thatâ€™s why you doubt me

Youâ€™re so cold

Youâ€™re so colddd

Ohh yeah

Youâ€™re so cold

Youâ€™re so cold

Ohh yeah

By the way, by the way

Youâ€™re acting so cold

By the way, by the way

Just like an eskimo

You don't know, you don't know nothing about me

Thats why you doubt me

Youâ€™re so cold

Youâ€™re so colddd

Youâ€™re so cold

Youâ€™re so cold

Ohh yeah youâ€™re so

Cold youâ€™re so coldddddd ohhh yeah

Youâ€™re sooo cold, sooo cold

Ohhh yoo yoooo

By the way

By the way

By the way

By the way

Youâ€™re so cold, so cold.
