I loved you baby right from the start  
Take my hand and show me what you got  
I never thought that I would have it end this way  
"I'm your girl" you told me everyday

Just before you left me in the dark  
I'm glad I never showed you what I bought  
I was about to put a shining ring on your hand  
When you left me I could barely stand

Cause oh, you leave me weary  
Come to tear me apart  
And oh, you leave me buried  
Make me carry, my heart

So you left me now in your past  
Broken, battered but I think I'll last  
You didn't have to leave me alone like that  
Better now but I still fade to black

Cause oh, you leave me weary  
Come to tear me apart  
And oh, you leave me buried  
Make me carry, my heart

Cause oh, you leave me weary  
Come to tear me apart  
And oh, you leave me buried  
Make me carry, my heart
