The one, the where, the why
The one for a perfect world,
A world that threw me away

I turned my eyes to see it all,
To give you what you're looking for that day
That day to run away

The one, the where you're here with me
You know my name but will it ever,
Ever be the same

My heart feels broken as I'm lying here
My thoughts are choking 'cause of you my dear
And everything of meaning disappears

Never said I'd lie and wait forever
Always and never, we'll be together
A heart that's left alone
Becomes a heart of stone

Always, never longing for you
Always, never being true

The one, the where, the why
The one for a perfect world,
A world that threw me away

My eyes open now with the world I see
It was a dream referring to how shit I feel
Thank you for wandering
In the most precious world I've seen

Never said I'd lie and wait forever
Always and never, we'll be together
A heart that's left alone
Becomes a heart of stone

Always, never on my mind
Always, never you are mine

Never said I'd lie and wait forever
Always and never, we'll be together
A heart that's left alone
Becomes a heart of stone

Always, never said and done
Always, always change my mind
Always, never being true
I'll always love you

Always and never
