Behind the closed doors,
Behind the great walls
Decisions are made with no regrets
Killing, enslaving innocents
Behind the smile they fake

Drink the liquid evil
Then bleed it out, cry it out
Serve the liquid evil
And die with it
And die with it

They'll sacrifice what ever it takes
What ever it takes
They'll justify what ever it takes
What ever it takes

[Solo: K.Ranta]

Drink the liquid evil
Then bleed it out, cry it out
Serve the liquid evil
And die with it
Just die with it

Drink the liquid evil
Then bleed it out, cry it out
Serve the liquid evil
And die with it
Die with it
