

Norther "Evil Ladies"

Visit "[Evil Ladies](#)" on MotoLyrics.com

They are the devils on earth, high heels and little black skirt

They live just for pure pleasure

They are the dolls of doom, black eyes like shine of the moon

They kill just for pure pleasure

Evil they seem those ladies, evil we like our ladies

Evil they are those ladies, evil we want our ladies

They are the cats indeed, their touch is all you need

They live just for pure pleasure

They are the girls of fire, they know the game of desire

They kill just for pure pleasure
