

Norther "No Way Back"

I no longer feel
Where do my heart belong
This shivering wind
Has frozen it to the core
And the rain that whips my face
Covers my tears
These dark shades of night
Hides my fears

(Bridge)
There's no way
No way back
Wherever I am walking

(Chorus)
I hide behind my smile
And it hurts me inside
I cry without shedding a tear
I'm sorry this ends here

Still the wind blows
And the rain falls on me
And I know

(Bridge)
There's no way
No way back
Forever I am walking

(Repeat Chorus x2)
