

Norther "To Hell"

Visit "[To Hell](#)" on MotoLyrics.com

Vanity is eating us away
And no one cares
Insanity in me to stay
Shine in the eyes but the soul went away

They're so alone
Searching for their soul
But where to go to find the answers
No one we know
Waiting us in the end
But where to go to find the answers

Serenity is gone forever
Inside the storms' prevail with no end
Damage and distress together
Will cut the wound, infect the soul
And soon we'll see that

We're going to Hell
Gone are the days of forgiveness and grace
We're going to Hell
To finalize the plan, all together hand in hand

We're so alone
Searching for our souls
But where to go to find the answers

[Solo: K.Ranta & P.Lindroos]

Insanity in me to stay
And no one ever cares

[Solo: T.Planman]

We're going to Hell
Gone are the days of forgiveness and grace
We're going to Hell
To finalize the plan, all together hand in hand
