Hello darlin, Tell me how it feels
To be tangled up head above your heals
I could be wrong or maybe I'm dead on
The way our ears hear sentimental songs

I'm talkin bout love,
Love is how we make it, We make it
We're only gonna get what we give in the circle of life
Love, Love is how we make it, We make it
We all need love to survive

The cycle is viscous, It'll tear your heart apart
Then tomorrow brings healing under stars
The power is heavy, It comes down like a storm
And in no time you're wrapped up in his arms

I'm talkin bout love,
Love is how we make it, We make it
We're only gonna get what we give in the circle of life
Love, Love is how we make it, We make it
We all need love to survive

It's an obvious necessity, easily, oh
We can't live without rain
Even when the sun begins to
shine just keep in mind, yeah
You can't have love without pain

I'm talkin bout love
Love is how we make it, We make it
We're only gonna get what we give in the circle of life
Love, Love is how we make it, We make it
We all need love to survive
