Northern Pikes
"Girl With A Problem"

"Girl With A Problem"

She's a girl with a problem
She's a girl with a problem and there ain't no cure

Well she works so hard and at the end of the day
Needs a little somethin' extra to take it all away
They say love can conquer all and I wish it were true
She's a girl with a problem and there's nothin' I can do
Nothin' I can do

You can bang your head against a brick wall
You can lacquer Humpty Dumpty
But you can't prevent a fall
Well bang, bang, bang, and there's nobody home
She's a girl with a problem, she wants to be alone

You can lie to me
You can lie to yourself for a while
'Til those lies turn into something else
I will talk with you
You will listen to me for a while
Then you'll turn your back and away you go
Away you go

Can somebody please help me
'Cause it's drivin' me mad
Sometimes she's so good
But sometimes she's just so bad
She thinks I don't know but I've been there before
And more than once I've thought about just
Walkin' out that door
Walkin' out that door

Take me away
I know nothing lasts forever
Take me away

Well nobody wants the gallows
Nobody needs a noose
So break those chains and let her run loose

I love that little girl and I will love her 'til the end
But she's got a little problem
And she needs to have a good friend

You can lie to me
You can lie to yourself for a while
'Til those lies turn into something else
I will talk with you
You will listen to me for a while
Then you'll turn your back and away you go
Away you go

She's a girl with a problem and it's plain to see
I try to help her out, she won't listen to me
She's a girl with a problem
She's a girl with a problem
She's a girl with a problem
She's a girl with a problem and there ain't no cure
