Sail away sail with me I'm on the sea  
Let's take off  
Waters will write our story  
Fly away fly with me until the end  
Oh let's leave follow the wind just for once

Oh watch the rain slide on our skin  
and feel the warmth of the sun  
Oh smell the breath of our new world  
and taste oh taste freedom

Sail away sail with me to Germany  
Let's dance off to rhythm of the ocean  
Oh fly away fly with me to Galilee  
Let's find out all that we've brushed aside for so long

Oh watch the rain slide on our skin  
and feel the warmth of the sun  
Oh smell the breath of our new world  
and taste oh taste freedom
