"I'm Gonna Fly"

Just come out and see
come and follow me

You can think i'm running out of time
leaving things and memories behind
looking for the reason of your lies
far away from places I felt mine

I'm gonna fly high among shining star
just come out and see
I'm gonna fly high among shining star
come and follow me

Thinking of the time we've been apart
when everything seemed falling in the dark

Feeling stronger
than i could believe
now the time has come
set me free
