"Better Already"

Visit "[Better Already](#)" on MotoLyrics.com

We don't have to leave the living room to have a good
time
Everywhere we go, people want to know
We don't have to leave the living room to have a good
time

Get ready, already, no time to waste
No matter what we do it's still the case
We're stuck in one place
Like I'm standing on your shoelace
We come face to face or
Stand back to back
We trick the train to stay on track

And we don't have to leave the living room to have a
good time!

We going way out (now, now)
We gonna head down (now, now)
Singing hey (now)
Call when you're on my block
At the end of your luck so,

We getting on, we getting better already
The truth be told you know we're better already
Uh Oh Uh Uh Uh Uh Uh Oh Oh Oh
We getting on, we getting better already

Gotta get out of my own way so I could go my own way
Say what I wanna say on audio delay
Move my mouth and throw my voice
Retrace my steps, my choice, my plan
Begin again where we began

And we don't have to leave the living room to have a
good time!

We going way out (now now)
We gonna head down (now now)
Singing hey (now)
Call when you're on my block

At the end of your luck so,

We getting on, we getting better already
The truth be told you know we're better already
Uh Oh Oh Uh Uh Uh Uh Oh Oh Oh
We getting on, we getting better already

Hey!
Hey!

Deep water, deep cracks,
Deep holes and deep creases
Deep sleeping dreams of broken pieces
Pick them up and make them fit
Quit or don't quit.
Get even, some new shit you can believe in.

(We goin way out)
(We goin way out)

We getting on, we getting better already
The truth be told you know we're better already
Uh Oh Oh Uh Uh Uh Uh Oh Oh Oh
We getting on, we getting better already

We getting on, we getting better already
The truth be told you know we're better already
Uh Oh Oh Uh Uh Uh Uh Oh Oh Oh
We getting on, we getting better already

We don't have to leave the living room to have a good
time
Everywhere we go, people want to know
We don't have to leave the living room to have a good
time
