You heard the one one one about the girls girls girls  
They grabbed the mic mic mic they tore it up up up  
You heard the one one one about the girls girls girls  
They grabbed the mic mic mic they tore it up up up

Hey hey don't hate congratulate  
You know we're knockin' down doors straight out the  
gate  
Wake from the sleep of ages breakin' out of our cages  
We were born to fill pages we came to rock stages  
And we plunder and pillage live in the east village  
Breakin' it down with the ill fly skillage  
Better respect I didn't ask but what the heck  
Now I'ma lead this f\*\*\*\*in' army like I'm Chang Kai  
Shek

Northern State no we won't stop  
We were born to fill pages  
We came to rock stages  
For all the girls who love hip hop  
We were born to fill pages  
We came to rock stages

We ignite you thought we'd give up the fight  
But we ignite that's right it's raw we keep it strong  
Been runnin' so long we forgot how to sit  
We're makin' bad a\*\* hard core hip hop s\*\*t  
I'm gettin' dizzy and the sky is floatin' further away  
I put the beat on repeat I got so much to say  
And you're waiting you're not breathing holdin' your  
breath  
Thinkin' how you gonna live when you're surrounded by  
death  
We might be hiding in caves with all seven sleepers  
Hesta Pryn is playing chess with all the grim reapers  
And the moss is the carpet where I lay my head  
While your pillows of feathers turn to blankets of lead  
in your bed

Northern State no we won't stop  
We were born to fill pages

We came to rock stages  
For all the girls who love hip hop  
We were born to fill pages  
We came to rock stages

And you're waiting you're not breathing holdin' your  
breath  
And you're waiting you're not breathing holdin' your  
breath

Sexism like racism and racism is ill MCs gettin' faker  
than a 3 dollar bill  
One track your droppin' ho's like droppin' droppin'  
bombs  
Next track you're writin' odes unto your moms  
We're movin' towards the future while you're stuck in  
the past  
And now you're throwing sticks and stones into your  
house full of glass  
With your commodities and oddities and women are  
not part of these  
There's so much more we can be than my MC heroes  
tell me hey hey

Puttin' out a call to every region every legion if you're  
feelin' the heat  
Keep your ear to the street listen in on your dreams  
The world is not what it seems so get your notepad  
comrade  
Blazin' like a young gun through the grit and the  
flames  
On top of my game and I'm chargin' through fire  
The people are speakin' sparked and inspired  
Northern State kazaa'd and limewired  
Fat lip from my mic all these battle scars  
Tell the story of my glory behind beats and bars  
A love so true I don't do this for you  
Yo I do this s\*\*t cuz it's the s\*\*t I do

Northern State no we won't stop  
We were born to fill pages  
We came to rock stages  
For all the girls who love hip hop  
We were born to fill pages  
We came to rock stages

And you're waiting you're not breathing holdin' your  
breath  
And you're waiting you're not breathing holdin' your  
breath
