Problem is I'm her man
Problem is she's your girl
She won't understand
And I can't expect it no one can
I'm ashamed of lovin u
I can't help it I just do
I don't wanna see u hurt
Damn I wish I met u first
It's ok cause
I won't be the last one to love her
When I think about it
We weren't goin anywhere

I don't love her that way
I don't love her that way
I don't love her that
I I I don't love her that way
I told u girl
I don't love her girl
I don't love her that way
I don't love her that way
I don't love her that
I I I don't love her that way

I admit I'm in it deep
Tryna deal havin doubts
I don't leavin her for u
But I know I gotta choose
Didn't see this comin
Wasn't part of my plan
I don't wanna see u hurt
Damn I wish I met u first
It's ok cause
I won't be the last one to love her
When I think about it
We weren't goin anywhere

I don't love her that way
I don't love her that way
I don't love her that way
I don't love her that way

It's ok cause
I won't be the last one to love her
When I think about it
We weren't goin anywhere
I don't love her that way
I don't love her that way
I don't love her that way
I don't love her that way

I never meant for it to happen this way
I know it's hard to believe
Easy for me to say
Hope that she ain't mad at u
For what I chose to do
Girl it's all on me
I'll take the heat

Yeah Baby
I choose u
I choose u
I choose u

I I I don't love her that way
I don't love her that way
I don't love her that way
I don't love her that
I I I I don't love her that way
I don't love her that way
I don't love her that way
I don't love her that way
I don't love her that way
