Hey, hey, I'm turned up, I think I'm in love
And Shawty got me bouncing through the club like,
Hey, hey, I'm turned up, I think I'm in love
And Shawty got me bouncing through the club like,

Stepped in the party need a hope stopping off the girls
Looked at this Shawty and none of them compare to
her

So I humped over two and I asked what's her name
You're looking real sexy, hey Shawty what you drink?
I asked her if she's single she said what you think?
You know I couldn't leave without her number
You know I had to get her on my team, to get her on my
team, yeah

Get her on my tea, to get her on my team
You know I had to get her on my team, to get her on my
team, yeah

Get her on my tea, to get her on my team

You know I had to

Love the way you move that thigh, won't you come
closer so you can put that dynamite

You know I had to get her on my team, to get her on my
team, yeah

Get her on my tea, to get her on my team

You know I had to

See what I want so you know I had... gonna step too
hard

She moving, I gotta make my way there

And her body speaking a language I can hear it clear

When I got over to her she was feeling my dogging

She was looking at me sexy so come out how much she
want me

I asked if she's single she said what you think?

And you know she couldn't leave without my number

You know I had to get her on my team, to get her on my
team, yeah

Get her on my tea, to get her on my team

You know I had to get her on my team, to get her on my
team, yeah

Get her on my tea, to get her on my team

You know I had to
Love the way you move that thigh, won't you come
closer so you can put that dynamite
You know I had to get her on my team, to get her on my
team, yeah
Get her on my tea, to get her on my team
You know I had to

Hey, hey I'm turned up, I think I'm in love
And Shawty got me bouncing through the club like
Hey, hey I'm turned up, I think I'm in love
And Shawty got me bouncing through the club like
Hey, hey I'm turned up, I think I'm in love
And Shawty got me bouncing through the club like
You know I had to get her on my team, to get her on my
team, yeah
Get her on my tea, to get her on my team
You know I had to get her on my team, to get her on my
team, yeah
Get her on my tea, to get her on my team
You know I had to
Love the way you move that thigh, won't you come
closer so you can put that dynamite
You know I had to get her on my team, to get her on my
team, yeah
Get her on my tea, to get her on my team
You know I had to.
