You know you could've cheated
But you thought more of yourself
And just chose to leave
And you know we're gonna be hittin'
When he see you the next time

And you'll have be with me

Wow, wow, why you upset?
Baby what your man do this time?
Don't you know you're gonna get tired of it, yeah?
Oh oh, what you won't be?
that you got some money inside
Say you deserve much more than that
Girl you're too fine, I'll be feeling that boy
Come with me now, put a smile on that face tonight,
get right

Pre Chorus:

You know you could've cheated
But you thought more of yourself
And just chose to leave
And you know we're gonna be hit it
When he see you the next time
And you're happy with me

Chorus:

And that's payback
(Hey, hey payback payback)
Payback
(Yeah, hey payback payback)
Well I guess that it thought you good to move on
Say you knew him and me
now ..I'm your man, girl what's that?
Payback

Oh oh, now you and me
And you see it's better on my side,
Yeah, and he know you ain't never coming back home
yeah
Oh oh, you know what that means,

you never had a love like mine
I'ma take it to the middle like a running back oh
Girl you're too fine, I've been feeling that way
Come with me now and put a smile on that face
Tonight, get right!
Oh boy!
