I've been told that  
This life is a merry go round  
I've been told that  
I ain't ever gonna get of the ground  
But she says that  
I've got all it takes  
Yea she thinks that  
I've got all it takes

People say that  
Hope is a hopeful word  
People say that  
I won't get what I hope for  
But I hoped for her  
And I got her too  
Yea we're watching dreams come true

And I'll fly just as high  
As I want to, cause she wants me to  
When I fall too hard  
She'll be right there  
She'll be right there sayin

Baby get off the ground  
Do a little dance, make the world go round  
I believe in you  
Honey please, fly so high  
When we look down we're not scared to die  
I believe in you

I've heard that  
Good things never last  
I've heard that  
I'm really gonna miss my past  
If every day  
Starts and ends with her  
I won't ever complain

Yea I'll fly just as high  
As I want to, cause she wants me to  
When I fall too hard  
She'll be right there

Sheâ€™ll be right there sayin

Baby get off the ground  
Do a little dance, make the world go round  
I believe in you  
Honey please fly so high  
When we look down weâ€™re not scared to die  
I believe in you

Yea Iâ€™ll fly just as high  
As I want to, cause she wants me to  
When I fall too hard  
Sheâ€™ll be right there  
Sheâ€™ll be right there sayin

Baby get off the ground  
Baby get off the ground

Baby get off the ground  
Do a little dance, make the world go round  
I believe in you  
Honey please fly so high  
When we look down weâ€™re not scared to die  
I believe in you
