

Burning Flame "Tears And Hope"

Visit "[Tears And Hope](#)" on MotoLyrics.com

everything that you do in your day is all about to
survive
cause badluck always stand behind you break your
smile
and i know you pain always be true
and i know you pain always be new

wish GOD will nice every pray make they strong
save your cries out
wish GOD will nice every pray make they strong
dont you give up

so stand up and be brave use your time
so stand up and be brave use your time

dont lose your fate you are the child of GOD
just hold on tight till the last of fight
all hope from heart
all hope from deepest heart
just say it right not just always cried
just say what you need heart will lead you in every pray
you did
