Thinking contemplating whether i should be with you,
so I substitute you with this drink, I don't know why, why
you had to go, where are you when you're alone, where
are you when you're alone, run from all your feelings,
stop what your doing, because I can't stop for you,
where were you? where did you go? were you alone?
am I still with you? no, and where were you when you
were all alone because I was scared, were you with that
other guy I just don't know why, why were you so far
away, would you let me be you were alone and I knew
you'd go, so where did you go?
