Intro

Yeah, Calinator I'm goin' deep on this one right
here We're gonna kick it Let's go

Chorus

I get that bass in your face and I let it kick it
And the whole dang world is spinning with it (X4)

Verse 1.

You know who it is without a doubt or hesitation
Cuz I am Calinator and I am here and I am sayin'
That y'all get a job and then y'all get your
payin's
And y'all should get a fish go grill it and y'all be
fish filletin' And
I'll be in my house Bam! That is where I'm
Stayin'

Yes I like Rap/HipHop and no I won't be swayin'
I kill everything you give me yes I call that slayin'
And I just want to let you know that I am never
playin' (Woo)

Life is a game you gotta play it right
Dive and Strive for the fun in it That's not a maybe
or might
Night or day in the midst of it there is always a light so
go Hard and never quit
you'll always win the fight like Yin and Yang I never
separate

Every day you always exaggerate
Like the main rain I said hy-du-rate
Like Blaow and Blang! You know I operate!

Chorus

I get that bass in your face and I let it kick it
And the whole dang world is spinning with it (X4)

Verse 2.

There are three doors in the Hallway
one leads sea way
I open up the door and there's a sign that reads
"Breese way"
So I freeze the day Celebrate
And the day seems to accommodate
I sit down on the beach and It finally seems to calculate
I need a rest got the best

Cuz I worked so hard and passed the test
I Work Hard I Play Hard I work the big yard
And I fell down my feet hurt
Got back up with a little dirt
And you say I am neater
Weâ€™ ll all you say is â€œMe First!â€ and
So I put down my T-shirt
It says Iâ€™ m the Expert
And just so you know you know you got no tickets for
the concert
Wait, put that on the revert
No thatâ€™ s not an alert
I just want you to know that at my house there is desert
And here is and excerpt
From my boy that bertie bert
That nothing is free kid that nothing is free squirt
So become a convert
Listen now and assert
That everything is eaer if you copy and and insert

Chorus

I get that bass in your face and I let it kick it
And the whole dang world is spinning with it (X8)

Bridge:

Weâ€™ re fly right till we die I donâ€™ t know why I
wanna say GoodBye Good bye! (X4)

Chorus

I get that bass in your face and I let it kick it
And the whole dang world is spinning with it (X8)
