Intro

O-town, Kay

Verse 1

Yeah So this is what I want all you Haters to stand up  
and hear  
That I got no fear and the time is near loud and clear  
Is the man who is standing on the pier  
He says I shed one tear for the guy who disappeared I  
am

Living in my white walls not tall at all  
5'3 if you please last name has a d  
G.O.O.D. signed on Pusha T workin' hard, that's me  
Care to sit on down and drink a spot of Tea Well I

Got my beats on listenin an drinkin Arnold Palmer then I  
Take another sip again that is what I'm doing Ben  
Walking down the path of Best and your just walking  
round in circles  
I am takin the real test and you are stupid nerd Steve  
Urkel

And when mixed the colors red and blue shall always  
make that purple  
Drawn to lights and out of water you are just a  
confused turtle  
Flow so sick it's coughing rhymes I'm saying hater I got  
no time  
Is what I love just such a crime and only if I had a dime

Chorus

You gotta live your life  
You gotta live it up  
You gotta raise you glass and you fill that cup  
You gotta live your life  
You gotta live it up  
So let's all go and live right now I'm talkin' to you man,  
wassup  
Up up you gotta live it up up up you gotta live it up  
You gotta live your life

You gotta live it up

So let's all go and live right now I'm talkin' to you man,  
wassup
