Hey sunshine, Day was never long  
Devoured hate in all of us  
Truth rises and screams I will go on  
Disaster is nothing anymore  
Say what you came to  
I'd say All's Well  
Goodbye to him  
Don't think I'll come back  
You don't know me at all  
Much deeper than any ocean crawls  
I've decided to keep my blessings close  
Time weakens the will to move along  
If you're offended, I sing of nothing wrong  
Say what you came to say  
I'd say All's Well  
Goodbye to him  
Don't think I'll come back  
You don't know me at all  
I'd say All's Well  
Goodbye to him  
Don't think I'll come back  
You don't know me at all  
You don't know me at all  
Say what you came to say  
I'd say All's Well  
Goodbye to him  
Don't think I'll come back  
You don't know me at all  
I'd say All's Well  
Goodbye to him  
Don't think I'll come back  
You don't know me at all  
You don't know me at all
