Last mile of a dead end driver
Supernatural smile is keeping me alive
Fallout of a world gone blind
What keeps you up at night
Is searching for a high again
Scream down let the true word fly
Got the gunman scared
And running for his life
So sad I'm the bad guy now
Let's hope that California gives us all another try
To get noticed
Yeah no one ever likes the blame
But everyone tries to blame you
Everyone wants the fame
No one ever cares at all
Scream out let the whole world down
Never see it coming buried under ground
Cheap shot with your hands held high
Must have hit close, it makes you want to die
Run now let the tank run dry
Got the wheels all turning, burning up your mind
Fade fast, the jaded ones cry
Let's hope that California gives us all a big
goodbye
You won't notice
Yeah no one ever likes the blame
But everyone tries to blame you
Everyone wants the fame
But no one ever came to see you
Yeah no one ever likes the blame
But everyone tries to blame you
Everyone wants the fame
No one ever cares at all
Yeah no one ever likes the blame
But everyone tries to blame you
Everyone wants the fame
No one ever came to see you
Yeah no one ever likes the blame
But everyone tries to blame you
Everyone wants the fame
No one ever cares at all
