

## Call Me No One "Time Machine"

Visit "[Time Machine](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Another golden moment gone  
Another day I run away  
Inside a shelter made of wrong  
So my life's not perfect, not at all  
And the life that wants you wonders  
Where you've gone

It's simple, wait long enough for  
The life that you wanted  
It'll come around  
I feel like, like our tomorrow  
Is gonna look like the day  
That we're living now, whoa

Another season's gone and done  
I'll never understand the killing of time  
I know I'm guilty of  
In your life that's perfect, you ran so far  
To the same old story  
God be with us all

It's simple, wait long enough for  
The life that you wanted  
It'll come around  
I feel like, like our tomorrow  
Is gonna look like the day  
That we're living now, whoa

Make a choice, live or suffer  
Change the world with a change of your mind  
Don't go alone if you don't belong anymore

It's simple, wait long enough for  
The life that you wanted  
It'll come around  
I feel like, like our tomorrow  
Is gonna look like the day  
It's gonna look like the day  
That we're living now
