(verse 3)

I said we on to be their favorite

Mulla team pacing

further than the basement, higher than the spaceships

Nasa couldn't race this, rockets couldn't chase this

swagga all vintage, African Fresh Prince

flying like the Jetsons, higher than the Jefersons

moving on up til they can't get enough of us

now we at the top better use your binoculars

swagga non-stop is what you do if you have some

uh, and I'm just getting started

ever seen a Kenyan boy trying to go harder?

you gotta work for your profit

coz everybody's trying to get paid in Nairobi

uh, I think your swagga need coaching

fresh all day it's so cool by the ocean

swaggin down in South Coast you can say we coasting

high grade blowing, 254lowing...damn!

(hook)

All I know is swagga

me I keep it fresh all day so cool

put your hands up if you have some

coz you keep it fresh all day so cool
