I've seen it before, afraid of what's in store  
But this time I'm ready to go  
Break through the laws of man into a foreign land  
It's the only way to show

Everything we are and what we came to do  
I'm feelin' ready, I, I know we're ready  
Everything we are and what we're meant to choose  
With the lights down low, it's time to let 'em know

I know, I know we're gonna take it all the way  
I know, I know it doesn't matter what they say  
'Cause when the sun shines down and wipes away the  
gray  
I know, I know we're gonna take it all the way  
[x2]

The clock's ticking down, the eyes are looking now  
I think they're ready to know  
There's something more to this, something that can't  
be missed  
No matter which way you go

Everything that lies behind just let it go  
I'm feelin' ready, I, I know we're ready  
Everything that lies ahead come take control  
With the lights down low, it's time to let 'em know

I know, I know we're gonna take it all the way  
I know, I know it doesn't matter what they say  
'Cause when the sun shines down and wipes away the  
gray  
I know, I know we're gonna take it all the way  
[x2]

It's like where where do I begin  
The clock is ticking down my friend  
But no worries like RG3  
We're takin' it all the way  
Yeah, let this be the sign  
For you to open up your mind

'Cause when he comes back next time  
He's takin' it all the way  
Takin' it all the way  
Takin' it all the way

I know, I know we're gonna take it all the way  
I know, I know it doesn't matter what they say  
'Cause when the sun shines down and wipes away the  
gray  
I know, I know we're gonna take it all the way  
[x2]
