"Particle of Light"

Visit "[Particle of Light](#)" on MotoLyrics.com

There's a particle of light
And it makes things rights
It makes them all right

I just don't behave
Like a wave

I can't see where I am
wandering in the night
And we can take a long
Until the morning
I could take your hand
Wondering if it's right
Or is this feeling just ...

The particle of light
Doesn't know how to behave
But is the heart full of ...
And we can light the wave

I can't see where I am
wandering in the night
And we can take a long
Until the morning
And I could take your hand
Wondering if it's right
Or just a warning
A warning

The particle of light
Feels all right
It tends to behave
Like a wave
... emotion ...
Sways the ocean
Just a particle of light
A particle of light
A particle of light
A particle of light
