Blue eyes can't deny you
You smile I sit beside you
Let's go I can drive too
Black sky up above us
I drive, they'll never find us
Quick, we can hide too
I never pictured you and I
My new addiction, you

Maybe we're crazy
Whatever happens we can keep to ourselves
Praise me, chase me
What you find you can keep too
If you just promise me you'll stay awake
I promise I won't leave, just stay awake

Night's young, what can we do
Quick kiss from me to you
Good luck closes at two
Six drinks and we've had enough
Till the next one coming up
Must say, glad I found you
I never pictured you and I
My new addiction, you

Maybe we're crazy
Whatever happens we can keep to ourselves
Praise me, chase me
What you find you can keep too
If you just promise me you'll stay awake
I promise I won't leave, just stay awake
Awake, awake, awake

Stay...
Stay awake
Till the night turns into day
Stay awake

Maybe we're crazy
Whatever happens we can keep to ourselves
Praise me, chase me

What you find you can keep too
If you just promise me you'll stay awake
I promise I won't leave, just stay awake
