Hey lady
You think you got it cool
Never turn around from what you say or do

Hey lady
You think you got it strong
But do you have a reason to be unreasonable?

Yeah

She says she's automatic
Automatic
You say she's automatic
Automatic
The way she loves rejection

Hey lady
You know it's true
Two more lines to go in this musty hotel room

Hey lady
I could never stay, no
How to get the most in loving your authority

Yeah

She says she's automatic
Automatic
You say she's automatic
Automatic
The way she loves rejection

You pay all your bills
Now your taking your favorite pills
