"Stunner"

Visit "[Stunner](#)" on MotoLyrics.com

Your mood has gone from day to night
So sleep now sleeper rest your eyes

Hold on to your dreams and dont look back
Your still days away from knowing
Where the Hell your at
And you know that

Oh everythings over
Your feeling alright
There's someone thinking tonight
Everything must end
But you long for more
Your no stunner anymore

It's crazy we made it this far
But where do you go from here in eachothers arms?

We took it all for granted that you were sincere
A thousand words cannot say your apologies
And you know that

Oh everythings over
Your feeling alright
There's someone thinking tonight
Everything must end
But you long for more
Your no stunner anymore

Oh everythings over
Your feeling alright
There's someone thinking tonight
Everything must end
But you long for more
Your no stunner anymore

Your no stunner anymore
Your no stunner anymore
