She wasn't afraid to go
The night the stars fell from the sky
Just take one day at a time
Now everything means everything

You say you dont want me to go
I need to
Whatever you say you dont need me to go
I want to

Feel so good to hear your voice
When you are so far away
Fell in love with this moment
Now everything means everything to me

You say you dont want me to go
I need to
Whatever you say you dont need me to go
I want to

Whatever you say you dont want me to go
I need to
Why would I lie to you?
Lie to you

Whatever you say you dont want me to go
I need to
Whatever you say you dont need me to go
I want to

Lie to you
