Verse 1: Well you can take it or leave it, either way its fine  
And i'd love to say we care but we got better things in mine  
Well you can fake it or mean it, just look me in the eye  
And tell me honestly how you are worthy of our time

Chorus: This is our situation, and we're happy to be here  
I wouldn't change this place for anything x2

Verse 2: Sometimes wish i could turn back time  
Soften up and draw a line  
And see you cross it, unaware of whats on the other side  
Well we'll be waitin, to shrug off every lie  
Your lips are spillin, we'll catch you every time  
We'll catch you everytime  
Chorus: This is our situation, and we're happy to be here  
I wouldn't change this place for anything x2

Verse 3: Well it's a long way up in this feather town  
Gonna touch the sky before i hit the ground  
Well it's a long way up in this feather town  
I'm gonna touch the sky...

Chorus: This is our situation, and we're happy to be here  
I wouldn't change this place for anything x3
